

Topology-aware cluster-resolution path

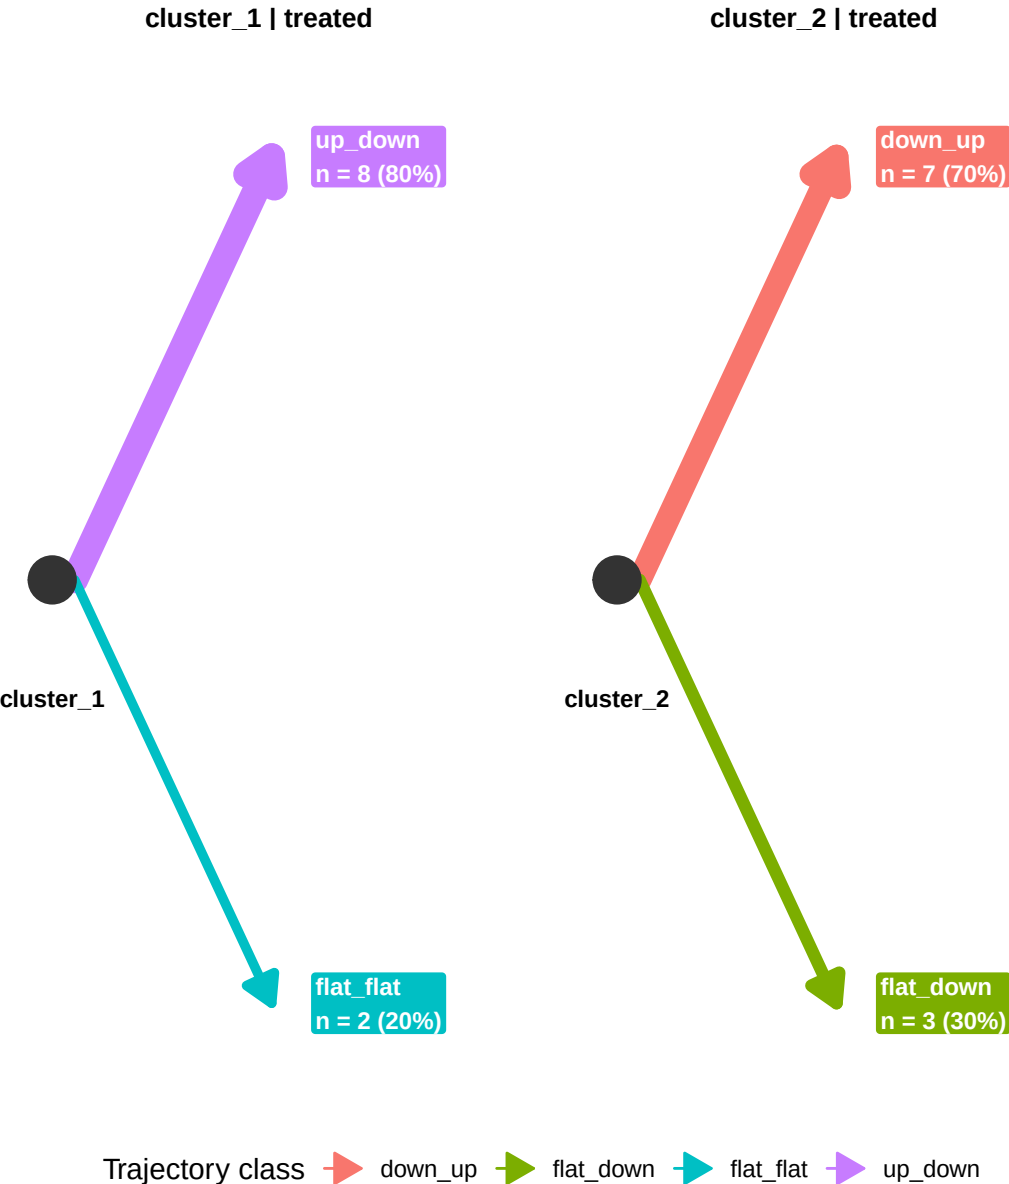

Likelihood fit, trajectory homogeneity and cluster size are evaluated together.

help("lot_plot_cluster_selection")

Trajectory arms within molecular-feature clusters

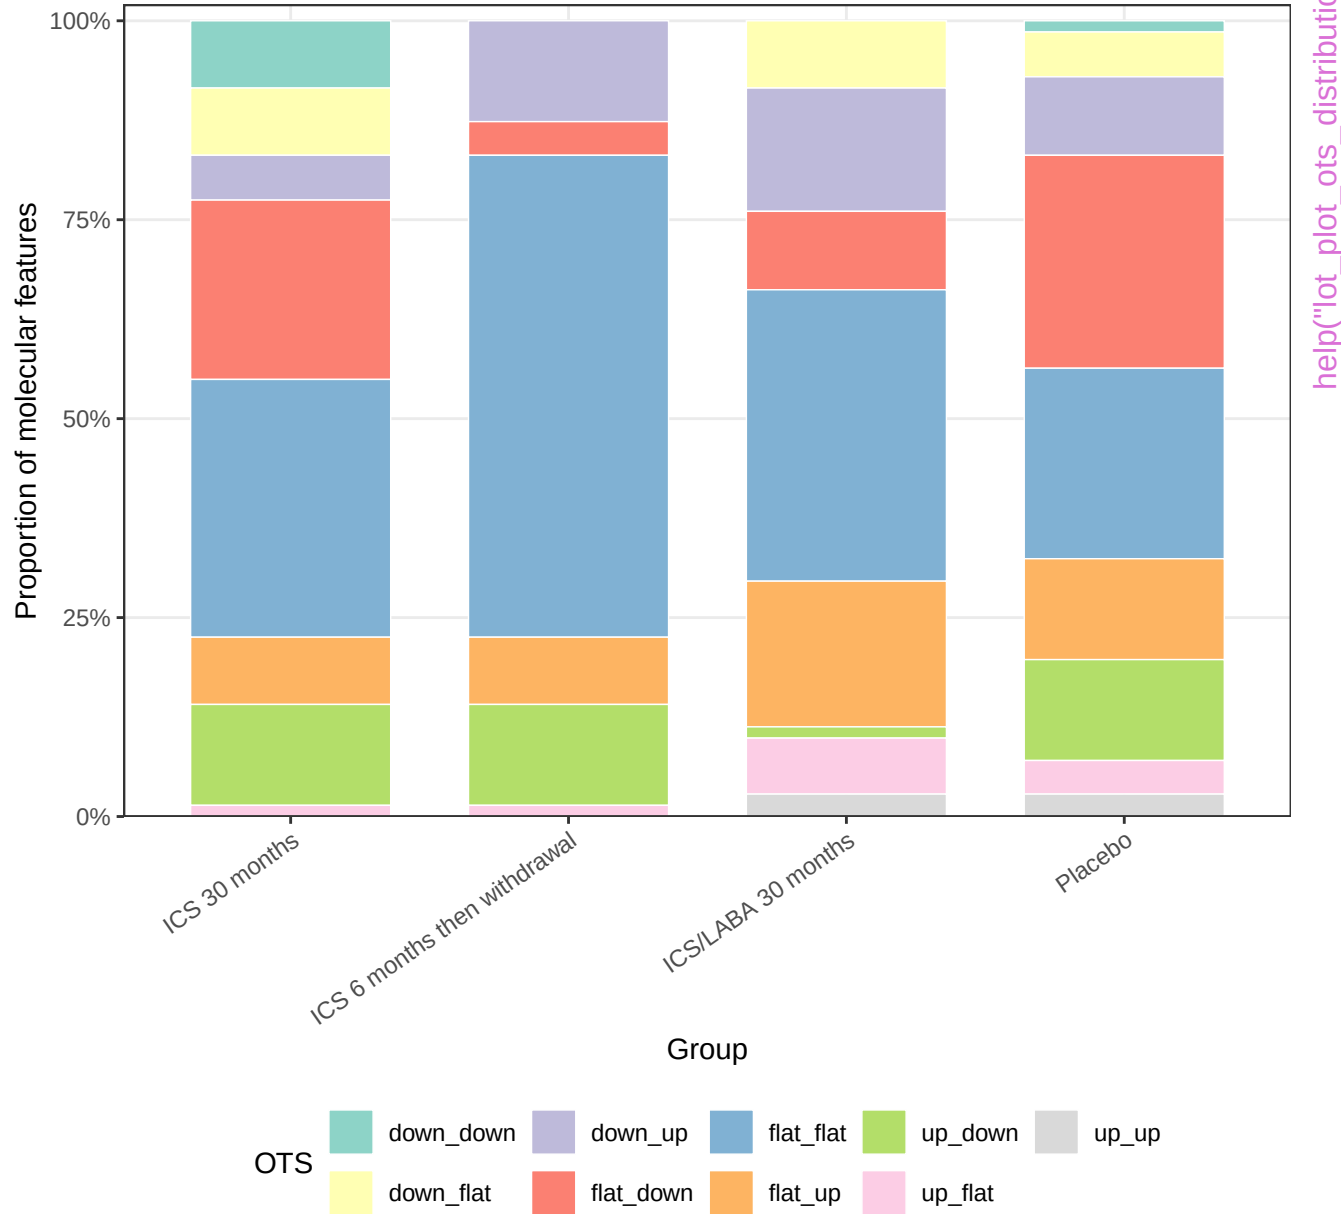

One cluster may contain multiple longitudinal OTS patterns; arrow width represents the within-cluster proportion

help("lot_plot_cluster_trajectory_arms")

Distribution of Omics Trajectory Signatures

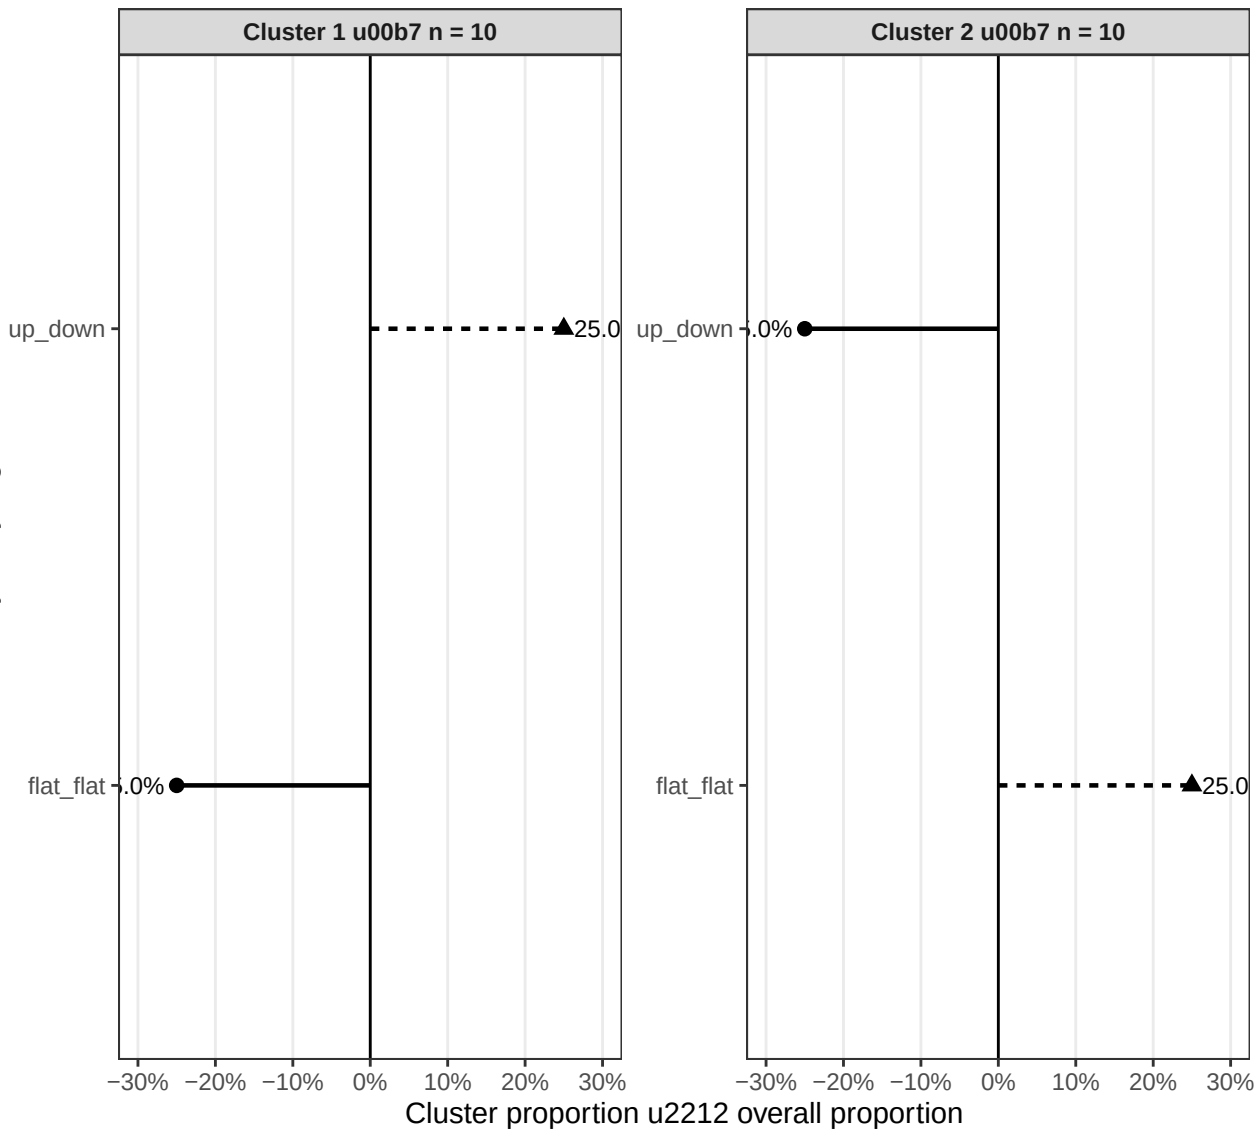

Estimator: masigpro

Topology-deviation nail plot

Positive deviations indicate OTS enrichment within a cluster; negative deviations indicate depletion

Omics Trajectory Signature

● Depleted ▲ Enriched

help("lot_plot_topology_deviation")

Longitudinal molecular trajectories

2 molecular features across 3 groups
